Management's Discussion and Analysis of Financial Condition and Results of Operations

3. Please clarify if the 27% decrease in revenue from financial literacy courses for the

quarter ended September 30, 2022 represents a strategic shift to emphasize the marketing

of personal interest courses. If so, this appears to imply that introductory financial literacy learners were converted to personal interest paying learners instead of financial literacy learners during the period; however, we noted that the number of other personal interest paying learners declined during this period. Please provide a more comprehensive explanation as to why revenue from financial literacy courses significantly decreased during the period and explain how the above factors, and the decrease repeat purchase rate, contributed to the decrease. Lastly, provide a discussion on management's assessment of the anticipated effect of this strategic shift on the financial condition and results of operations in future periods. Refer to Item 5.A.1 of Form 20-F as referenced from Item 4 of Form F-1.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.

Refer to Rules 460 and 461 regarding requests for acceleration. Please allow adequate time for us to review any amendment prior to the requested effective date of the registration statement.
